PERMISSION TO POST PHOTOGRAPHS AND SAMPLES OF WORK ON THE SCHOOL WEBSITE & SCHOOL LITERATURE

Al-Hijra Academy has developed a school website and teachers' websites. You can access the school site on the Internet at www.alhijraacademy.com the web sites will contain information about the school and the school community and can be visited by anyone in any part of the world who has access to the Internet.

The Al-Hijra Academy School Board has prepared guidelines for the development of a school website, class web site and school literature these guidelines include the following:

- Pictures of students included on school web pages or school literature must NOT include student names. Similarly, schools should not use filenames for pages and images that include student names. First names can be used for samples of student work.
- When using pictures of persons on the school website or school literature, the school is required to obtain written permission on the form provided.
- School website or school literature content should NOT provide the means for people to contact any student directly.
- Communication to the school must be directed to the appropriate staff member.

Your child's school/teacher may wish to display a photograph (for example, a team photograph or your child participating in a small group activity) or a sample of your child's work on the school website, class web site or school literature. There may be reasons why some families do not want their child's photograph or work displayed on the school website, class web site or literature. In order to comply with these wishes, all students are asked to return the form at the bottom of this page to the school. Your selection will be in effect until your child leaves the school or until you sign a new form indicating the required change.

Thank you.
