Spotlight On

GRADE 5

Grade 5 has been working incredibly hard and showing so much dedication in their learning! Our recent Science Fair was a huge success, with so many creative and thoughtful projects that reflected months of effort, curiosity, and perseverance. In Language Arts, we are currently exploring *Holes*, diving into its themes of mystery, friendship, and personal growth, and students have been making meaningful connections along the way. In Science, we have begun our Human Systems and Anatomy unit, where students are discovering how the body works in fascinating and interconnected ways: from the organs that keep us alive to the systems that help us move, think, and grow. In Math, we are wrapping up our Fractions and Decimals unit, and students have been building their confidence as they apply these skills in different contexts. It has been such a productive and exciting time in Grade 5, and we are so proud of all their hard work!

—Sr. Iman

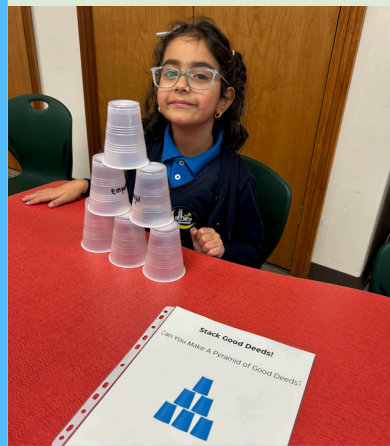

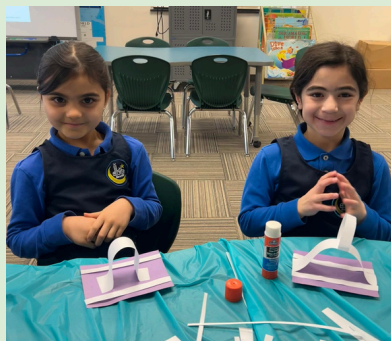

LIBRARY CORNER

Grades 1 through 4 enjoyed a virtual visit with author Aya Khalil. Ramadan and Eid-inspired activities followed our story times.

In recognition of Women's History Month, we focused on Zaha Hadid and students created 3D paper sculptures.

Preschool students welcomed spring with a read aloud of *Spring Fever* and made flower necklaces.

Inspired by *Don't Trust Fish*, students were either predators or preys and had to persuade the audience to not trust the other.
